

NOTES OF SECOND MEETING BETWEEN ANDREW GILLIGAN AND DAVID
KELLY OF 11 APRIL 2002

“Other mems”

Didn't come clean in '95

We had a period of apparent co-op between 8/95 – 2/96

Saddam thought a data dump wd satisfy the UN

Has abandoned El-Hakim – destroyed

We suspect other plants: they have eqpt (albeit in small quantities)

UNA/CD 4

Tareq: Missile plant

There is efficient info coming out since '98 to make us concerned:

People we were interested in were maintained as teams:

Military/Industrial commission remains the apple of SH's eye

Programme continues – quite ambitious –

Actual wpns small plus crude Have (or could CD have) something within 6 mmo.

Main capabil wd be phsycological – no hugely destructive attack poss.

See all int – tell them what it means!

No smoking guns – nothing you wouldn't know.

A bit of agent they haven't admitted – have imported small quantities of plague vaccine

A few Russian scuds unaccounted for – 2 of 819, poss more

Plus – minus 50 indigenous

Rather uneventful – not much in it – so delayed

Kelly role to advise on all CBW claims in dossier.

Thread equals capabil plus intention. Intention lacking – too much to lose w/terrorists etc.

BW prog – absolutely no evidence of FGN involvement.

ALIBEK has claimed there was, but Kelly does not believe.

None of the BW facs looked @ by UNSCOM were hit in DF

Missile facs were hit & one chemical plant @ Fahuja

BBC/4/0050

Desert Fox did not affect their BW prog at all.

Cannot trust them of course – 10/15 yrs ago there was a lot of info' with the concealment and deception op much less info.

but CND [Concealment and Deception] does scale down programme. Can't conceal huge prog.

We only have 80 serious documents on BW (200 total)- most ex UNSCOM

But US is less + less convinced that Sadddam is contained

Sanctions not stopping things getting in

Many attempts to procure – esp in nuclear area

But facts just aren't there, even if intent remains

Missiles – John Harlow, ex BAE

US keen on acting

But little hard HEMINT – v.diff target to crack

I see all int plus not much to see – not much to say

Inspectors return? Iraq may say yes I think so long as partic. site/timelines. Blix says 12 mo needed w-full co-op

Tentative links – acquisitions/intermediaries/Pakistan.
but Russian has got fed up w/Iraq – snubbed.

They have (or cd have within 6 mo) something capable of putting a small cloud – but no more

BBC/4/0051
