I think one of us should speak to Ann on this.

I have confirmed that you will appear from 8.30 to 9.45 on 17 July and will have to leave promptly.

I asked where they were with other interviews.

The ISC clerk told me that the Committee were not interested in interviewing Andrew G as he could not say anything more to them than the FAC.

He said that on the source they were waiting for David O to write to them with the correspondence. He implied that he did not believe it was the source so could not see the point of the ISC seeing him and said they were not interested in the BBC/AC row. The fact he rested this on was that AG said that he had known his source for years whereas the MOD said months. I think this point could be clarified in the letter from DO to the ISC, I pointed out that the BBC had not denied he was the source.
