**The Decision to go to War in Iraq**

As you know, the Committee heard oral evidence today from Dr David Kelly of the Ministry of Defence.

The Committee deliberated after hearing Dr Kelly's evidence, and asked me to write to you, expressing their view that it seems most unlikely that Dr Kelly was Andrew Gilligan's prime source for his allegations about the September dossier on Iraq. Colleagues have also asked me to pass on their view that Dr Kelly has been poorly treated by the Government since he wrote to his line manager, admitting that he had met Gilligan.

I am copying this letter to Geoff Hoon and to Bruce George.
