[REDACTED]

Don't worry about getting it to me soon I can collect in Berlin one day

Lots of rain so I managed to plant my winter greens this evening. For once I am on top of the garden so it is frustrating to leave it in neglect for five weeks

Thinking of you.

Best wishes,

David

Hi David,

great to hear your voice and read your mail!
For the time being, I will not be able to send the clip via e-mail, since I have no possibility to connect from any of the available computers to the e-mail. I tried with the memory stick, but on my desktop for e-mail I have no inlet for the memory stick.

All the best, [REDACTED]
