Glad I eventually found your email address. It sounds as though you plan to have fun after retirement in August. I hope that it all works out for you. Blaming not really serious yet - lots of work to do to see who is right.

I intend to be in NY next week so hopefully we will see each other then

Best wishes,

David

Hi David, this is the correct address. We [REDACTED] are just about wrapping up amendments to [REDACTED] which hopefully will be ended by the end of this month. Others are concentrated on [REDACTED]

[REDACTED] when we finish our current task. I think we will probably concentrate on [REDACTED] for what that's worth.

Separately, when my contract finished [REDACTED], I plan on doing a bit of travelling - [REDACTED]

[REDACTED] and hopefully during my travels cement my thinking on what I want to do next

How are things with the Govt now. I heard there was some mutual blaming between the Cabinet and Intelligence Service, but it could be just rumours.

Best wishes, [REDACTED]
