[redacted]

Call me today or on friday. My comments would have to be unattributable

Regards,

David

vid,

I hope this email finds you well, political crises notwithstanding.

I'm preparing an article this week examining the work of [redacted] with a particular emphasis on the bioweapons inspectors with whom I have good contacts I have interviewed several inspectors about their experiences, what they found, etc., and what they believe should be done to help Iraqi scientists after the war. Now I'm starting to gather outside comment on these issues, and wonder if you would be willing to respond to a couple questions regarding the contrasts between UNSCOM and UNMOVIC. I would aim to speak with you tomorrow if that is possible, or Friday at the latest. Or I could shoot you a couple questions via email

Best wishes,

[redacted]
