SUBJECT: IRAQ WMD: JIC SUB-COMMITTEE MEETING, 14 JULY

1. I went to this morning's meeting on Iraq WMD. The following key points arose:

Parliamentary business

- a. DCDI is to brief David Kelly this afternoon for his appearances tomorrow before the FAC and ISC, and will strongly recommend that Kelly is not drawn on his assessment of the Dossier (but stick to what he told Gilligan). Kelly is apparently feeling the pressure, and does not appear to be handling it well.

Site exploitation: ISG

DCDI provided an assessment of his recent visit to Iraq.

- c. The ISG is now up and running. David Kay seems to have given the Group a sense of direction and urgency. He is in close touch with Tenet. Document exploitation in particular is proving fruitful.
