MEMO

20030626 kelly 22.5 03 in one of the jan - chemical reactors not destroyed by unscm, gla lined chamber to promote chme rections - were being used again by the iraqis, recovered, taken at al muthanna, not properly destroyed by u En, recovred y iraqis, taken to fallujah, and used for no-banne Ed purposes

the 18 chem missiles wre reportedby blix, but do Ewnplayed blix thought they wre leftovers

i thin it 30pc lik Eely that iraq had active cw prog in the 6 m to a year likely Ethat ther was

not much coming out of detainees, despite finan Ecal inventives. .they are

the dossier was transformed in the E wk before it was published, to make it sexier the classic w Eas the 45 mins. mst things inndossier wre sdbl sc but that was Esingle-source one source said it took 4 minutes to set up a m Eissile assembly...and that was misinterpreted

conv not wmd, n Eo ev missiles loaded

most people in intel werent happy with i Et, beause it didnt reflect the considere view they were putting E forward

campbell

real but not reliable, agaisnt wishes

10-1 E5 yrs go there was a lot of info, with the concealment anddecep Etion op there was far less infomration

war was a tragic failu Ere of diplomacy, no direct ffort to engg iraq it was a footbal EI for everyone

it was small because you dnt conceal a lg prog E, and because it was actually quite hard toimport things.

the E E sanctions were effective, they did limit programme

there has E been proliferation - not in terms of people walking across th Ee iraqi border with 20 shells, but supply chain knowledge,-plan Es

isg headed by a major general, below him 2 one starts, brit Eish an australian

we dont have a gt deal of knowldege than we E had before

1500 - 100 brits, 10-20 aussies- not all experts, E about 20 of the brits are

it is a big handicap not to be abl Ee to draw on the eertise of russian and german et exprts
