

Page 24, 2<sup>nd</sup> Bullet, 3<sup>rd</sup> Line;

Amend to read "Iraq ~~also claimed~~ is known to have tested. ."

Rationale: Accuracy

Page 27, Box on civil nuc programme;

Amend 4<sup>th</sup> bullet to read "...one was bombed by the Israelis, one was never completed, and the other was bombed by the allied action in 1991. All reactor fuel was removed from Iraq in 1994."

Rationale. Clarity and factual.

Page 30 Para 28, Line 7;

Replace "although the fact that at least some require re-assembly makes it difficult to judge exactly how many could be available for use" with "We do not know their true state of readiness"

Rationale Does not entirely make sense and does not reflect intelligence claiming they are assembled There are also other equipment factors that might affect their operational availability - the broader replacement phrase takes account of these.

Page 36, Para 3, Line 5,

Add additional sentence " . specified timeframe Nor has it mad satisfactory disclosure in FFCDs as requested by UNSCR707, particularly with regard to biological weapons "

Rationale Factual

Page 39, Box on Iraqi obstruction;

Suggest that you could add a further bullet "refusing to allow interviews with key personnel

Rationale. Factual.

Page 40, Para 10, Line 6,

Amend to "Iraq admitted to producing in excess of 175 biological weapons"

Rationale. Accuracy. 157 bombs, 25 warheads = 183

Page 43, Para 16, Last line;

Amend to " and unrestricted access to any and all sites, personnel and documents."

Rationale Accuracy

Page 54, Para 27, Line 5;

It would be best to describe Taher Habbush as Head of the Directorate of General Intelligence (DGI).

Rationale This organisation is referred to earlier in the paper (pg 46) in the section on Saddam's intelligence and security apparatus. The Iraqi Intelligence Service (IIS) is US terminology for the same organisation
