Date: 25 June

Tel No: 7219 3278

No. of pages to follow:

Dear Clare Sumner

Alastair Campbell asked me to write to you with details of the follow-up to his oral evidence today.

I recorded the following requests by the Committee:

- \* A note on which parts of the February document were intelligence-based
- \* A full list of the changes requested by Alastair Campbell to the September dossier, with an indication of which were made and which were not made. No reasons are required in respect of those not made.
- \* A note on the basis of the uranium from Africa claim made in the September dossier ✓
- \* A note on 4 meetings and who attended them. I confess my attention was diverted at this point and we may need to check the transcript to be more precise about what was requested. ✓

The transcript should be available tomorrow afternoon.

The Committee would greatly appreciate receipt of as much of the requested information as possible by tomorrow evening, in advance of Jack Straw's next appearance, which begins at 09.00 on Friday.

Thank you,

Steve Priestley  
Clerk of FAC
